Buller	2803462	CONSERVATION_ AREA	1.56	North West Nelson Forest Park	Not Permitted		There are a number of blocks of NW Nelson FP around Kahurangi NP where WARO is mostly permitted. The change in status appears to have occurred at Cobb in NSI. The blocks in WSI are mostly not permitted are either SILNA land or track corridors. We propose no change in present WARO status for the various WSI blocks.	This is a small area within 500m of Lewis Hut and Heaphy track. Although land is in NW Nelson Forest Park, allowing WARO in this area is inconsistent with the exclusion along the rest of the Heaphy Track within the NP. Recommend it is not permitted.
