Long Text: Hi Anita - we still need to decide to what extent we upgrade these bridges (Red Rock/Leon's and Rob Roy) to provide a higher level of redundancy. Pete has moved on from the 'safety strap' proposals in his notifications and is now proposing virtually full replacements. I want to pursue something in-between. In the meantime I'm comfortable for you to push out the due dates on these notifications by 24 months. Realistically it's going to take that long to resolve, design something and get funding approved. Regards, Jonathan Calder
