

Land Snails from Tongariro/Taupo Conservancy

These snail species were among those collected in pitfall-flight-intercept traps in Tongariro/Taupo Conservancy in the summers of 2003/04 to 2005/06. They represent a small sample of the (probably) 2000 species occurring in New Zealand, of which only about 500 have been named. It is thought that New Zealand may have 3-5 times the snail diversity of most other countries in the world, when calculated on a per unit area basis. Names such as 'Punctidae SPP2K n. sp. 50' refer to the 'Species 2000 List' of currently unnamed species. Scale bar = 1 mm.

Snail Species List

1. *Allodiscus granum*
2. *Allodiscus tessellatus*
3. *Cavellia anguicula*
4. *Cytora maui*
5. *Fectola mira*
6. *Flammocharopa feredayi*
7. *Flammocharopa* n. sp.
8. *Georissa purchasi*
9. *Laoma mariae*
10. *Laoma nerissa*
11. *Otoconcha* n. sp. aff. *dimidiata*
12. *Paralaoma lateumbilicata*
13. *Paralaoma serratocostata*
14. *Phenacobelix giveni*
15. *Phenacobelix rusticus*
16. *Pbrixgnathus viridulus*
17. Punctidae SPP2K n. sp. 50
18. Punctidae SPP2K n. sp. 81
19. *Schizoglossa novoseelandica*
20. *Talassobelix zelandiae*
21. *Tberasia traversi*
