

Is this the right application form for me?

Use this application form for existing or proposed buildings/structures (e.g. boatsheds, sheds, retaining walls, bridges, steps, etc.) on Sounds Foreshore Reserve (SFR).

The Department of Conservation (DOC) will process the application and issue a concession if it is satisfied that the application meets all the requirements for granting a concession under Part 3B of the Conservation Act 1987.

You can also use this form to apply for a 'variation' of a current licence/lease concession if the change(s) are only minor. A variation can't be used if you want to extend the term, substantially change the location or increase the environmental effects of your concession activity.

What other application forms may be relevant?

If you seek an easement concession across SFR, either to benefit other land or in gross (e.g. right of way), for the following purpose:

- a right to convey water.
- a right to drain water.
- a right to drain sewage.
- a right of way.
- a right to convey electricity.
- a right to convey telecommunications.
- a right to convey gas.

Use or include this [form for new easement applications and variations to an existing easement concession](#)¹ across land administered by DOC.

How do I complete this application form?

- Complete all relevant sections of this form.
- DOC encourages electronic applications (e.g. typed Word document), rather than handwritten applications. Electronic applications are easier to read and less likely to be returned to you for clarification.
- If you need extra space, attach or include extra documents and label them according to the relevant section. Record all attachments in the table at the back of the application form (section L).

Note: Personal and sensitive information will be managed by DOC confidentially. For further information check [DOC's privacy and security statements](#)².

If I need some help, where do I get more information?

- Check DOC's [SFR Licences/Concessions](#)³ and [Access structures on SFR](#)⁴ webpages.
- DOC recommends that the applicant contact the Waitohi/Picton District Office to discuss the application and arrange a pre-application meeting (either face to face or over the phone) prior to filling in this form. Phone +64 3 520 3002. Email picton@doc.govt.nz
- It is also recommended that you seek legal advice for guidance when completing this form.

Have you considered DOC's statutory planning documents?

Your building or structure must not be inconsistent with [DOC's relevant statutory planning documents](#)⁵ as they set out how DOC and our Treaty partners manage public conservation land. Statutory planning documents can have a direct impact on your application, for example they may set the specific track limitations and vegetation clearance.

Book a pre-application meeting with DOC staff if you require assistance with navigating DOC's statutory planning documents.

How do I submit my application?

Email your completed application and any other attachments to: permissions@doc.govt.nz

What happens next?

Once received, your application will be assessed by DOC. If your application is complete, DOC will begin processing.

If your application is incomplete, it will be returned to you with a request for more information.

Why does DOC ask for this information?

The questions in this application form are designed to cover the requirements set out in DOC's conservation legislation. DOC will not use this information for any other reason not related to that purpose. Your answers allow us to assess:

- The effects of your encroachment and your proposed methods to avoid, remedy or mitigate any adverse effects of the activity.
- Your creditworthiness – a factor in determining whether DOC should extend credit to you and set up a DOC customer accounts receivable credit account for cost recovery. To make this assessment DOC will supply your information to a credit checking agency.

Note: Personal information will be managed by DOC confidentially. For further information check [DOC's privacy and security statements](#)⁶.

Information collected by DOC may be supplied to a debt collection agency in the event of non-payment of payable fees.

Treaty Partner consultation

DOC has a responsibility to give effect to the principles of the Treaty of Waitangi in all areas of our work and may consult with our Treaty Partners about your application. More information can be found on the DOC website on our [iwi/hapū/whānau consultation](#)⁷.

Contact your [local DOC office](#)⁸ if you require further information about consultation.

What fees will I pay?

You will be charged a processing fee for this application, regardless of whether your application is granted or not. If your application is granted, you may be required to pay annual activity and management fees.

DOC will send you a cost estimate of the processing fee once your application has been accepted. If further charges are likely to be incurred, DOC will provide you with a revised estimate.

DOC will invoice your processing fees after your application has been considered. If your application is large or complex, DOC may undertake billing at intervals periodically during processing until a decision is made. If you withdraw your application DOC will invoice you for the costs incurred up to the point of your withdrawal.

Your application will set up a credit account with DOC. See the checklist at the end of the form for the terms and conditions you need to accept for a DOC credit account.

In addition, if you are granted a licence over public conservation land you may also be required to pay a bond, insurance, monitoring fees and [ongoing activity fees](#)⁹ and management fees.

Bond

A bond may be required to ensure compliance with the conditions of a Sounds Foreshore Reserve permit or licence. The amount of the bond will be set at an appropriate level to recognise potential costs. The bond may be an unconditional on-demand surety bond or a cash bond held in trust and refunded (with any interest) at the conclusion of the building activity or called upon to ensure compliance with the conditions of the permit or licence.

Will my application be publicly notified?

Your application will be publicly notified if:

- It is a license with a term of more than 10 years.
- It is a lease.
- After having regard to the effects of the activity, DOC considers it appropriate to do so.

Public notification will increase the time and cost of processing your application.

What does DOC require if my application is approved?

If your application is approved DOC requires **insurance** to indemnify the Minister of Conservation against any claims or liabilities arising from your occupation and/or activities on SFR. The level of insurance cover will depend on the activity.

Note: DOC/Minister can vary the concession if the information on which the concession was granted contained material inaccuracies. DOC may also recover any costs incurred.

B. Variation of an existing licence and/or concession.

Is this application *varying* an existing licence/lease concession?

No	<input checked="" type="checkbox"/>
Yes	<input type="checkbox"/>
Licence/lease concession number(s) you wish to vary	

C. Pre-application meeting

Have you had a pre-application meeting or spoken to someone in DOC?

No (continue to section D.)

Yes (record details below)

Date of DOC pre-application meeting	
Name of DOC staff member(s)	██████████ on 25 September 2020 ██████████ on 3 March 2021
Name of person(s) who had the pre-application meeting with DOC	██████████

Record relevant notes/comments:

D. What structures or activities are currently on SFR fronting your property?

All existing/new structures or activities are required to have prior approval for the continued occupancy of SFR. This may mean you have unauthorised structures or activities adjacent to your property that you are unaware of.

Please select below all appropriate structures and activities in relation to SFR fronting your property (Licensed and/or Unlicensed):

Boardwalk	Boatshed ✓	Box steps
Bridge	Concrete path	Concrete steps
Conveying electricity	Conveying gas	Conveying telecoms
Conveying water	Culvert	Decking ✓
Drainage/Stormwater pipe	Handrail	House ✓
Retaining wall <1.5m	Retaining wall >1.5m	Seawall
Septic system ✓	Shed	Shelter
Slipway	Staircase	Step risers
Tramway/Trolley	Water tank	Other: _____

Note: If the activity is not in this list check the activity on the DOC website to find the correct application form or book a pre-application meeting. Application forms that combine applicant and activity information on the DOC website include:

- [Aircraft activities](#)¹⁰
- [Easements](#)¹¹
- [Land based guiding](#)¹²

Provide details of currently held SFR Licenses, Permissions/Permits and Easements:

Previous SFR ROLD License – NM-30681-SFR

E. Duration

State how long (months and years) you want any granted concession for private buildings or structures and why.

Note: An application for a licence concession up to 10 years will not be publicly notified unless the adverse effects of the activity are such that it is required, or if an exclusive interest in the land is required. An application for a licence concession more than 10 years must be publicly notified. An application for a for a lease concession no matter the duration must be publicly notified.

30 years. This length of time is appropriate for these buildings and structures that encroach on the SFR.

F. Is this application for existing or new buildings and structures?

Select from the following:

- No (for **new buildings and structures only** fill in all sections **except** Section G.)
- Yes (for **existing buildings and structures only** fill in all sections **except** Section H.)
- Both (for **existing AND new buildings and structures** complete **both** Sections G. & H.)

G. Existing Buildings or Structures – Description of Encroachment on Sounds Foreshore Reserve

1. Provide the Lot, Deposited Plan (DP) number and name of the bay of the **adjoining property** to the encroachment.

Lot number:	Property number: 130067 Section 2, Block IX Arapawa S.D. Q.C.S.R.D.
DP number:	Legal description: FR 794 SEC 2 QUEEN CHARLOTTE SOUND DIST - INT IN F/R SQ M
Name of the bay:	Te Weka Bay, Tory Channel / Kura Te Au
Address (if applicable):	

2. Describe in detail the existing encroachment, including when it was installed / constructed, the size and footprint of the structure/s and the purpose of the structure/s. Attach all relevant information and list in section L Attachments including:

- Record(s) of Title for your property (mandatory)
- Maps
- NZTM coordinates
- Photographs
- Survey plans
- Resource consent applications
- Concept plans
- Engineering reports
- Other

The existing structures are a house, built in 1961, and a boat shed, completed in 2020. The new boat shed has been constructed on the foreshore on the western side of the property. The old boat shed was located on the eastern side of the property, and has now been removed. The house, old boat shed and a garden shed have been the subject of SFR licence File: NM-30681-SFR since 2001. The old boatshed and garden shed, which were included in the previous SFR licence have been removed, and this application is for a new SFR licence for the part of the house that encroaches on the SFR, and the new boatshed.

Record of title, resource consents and plans are attached.

There is a lawn from the house down to the beach, which also serves as a wastewater field. It is thought that the wastewater field has been in-situ since the house was built. Further information is attached to this application.

Plan attached that shows the encroachments of the structures and facilities on the SFR.

3. Could this structure/work be reasonably located on your private property? Provide details of other sites considered:

It is not possible to relocate the house, which has been in its current location for sixty years. The only practical location is the foreshore for a boatshed.

4. Is the building going to be used for commercial purposes? Give details/reasons.

No

H. New Structures/Work - Description of Encroachment on Sounds Foreshore Reserve

1. Provide the Lot, Deposited Plan (DP) number and name of the bay of the adjoining property to the encroachment.

Lot number:

DP number:

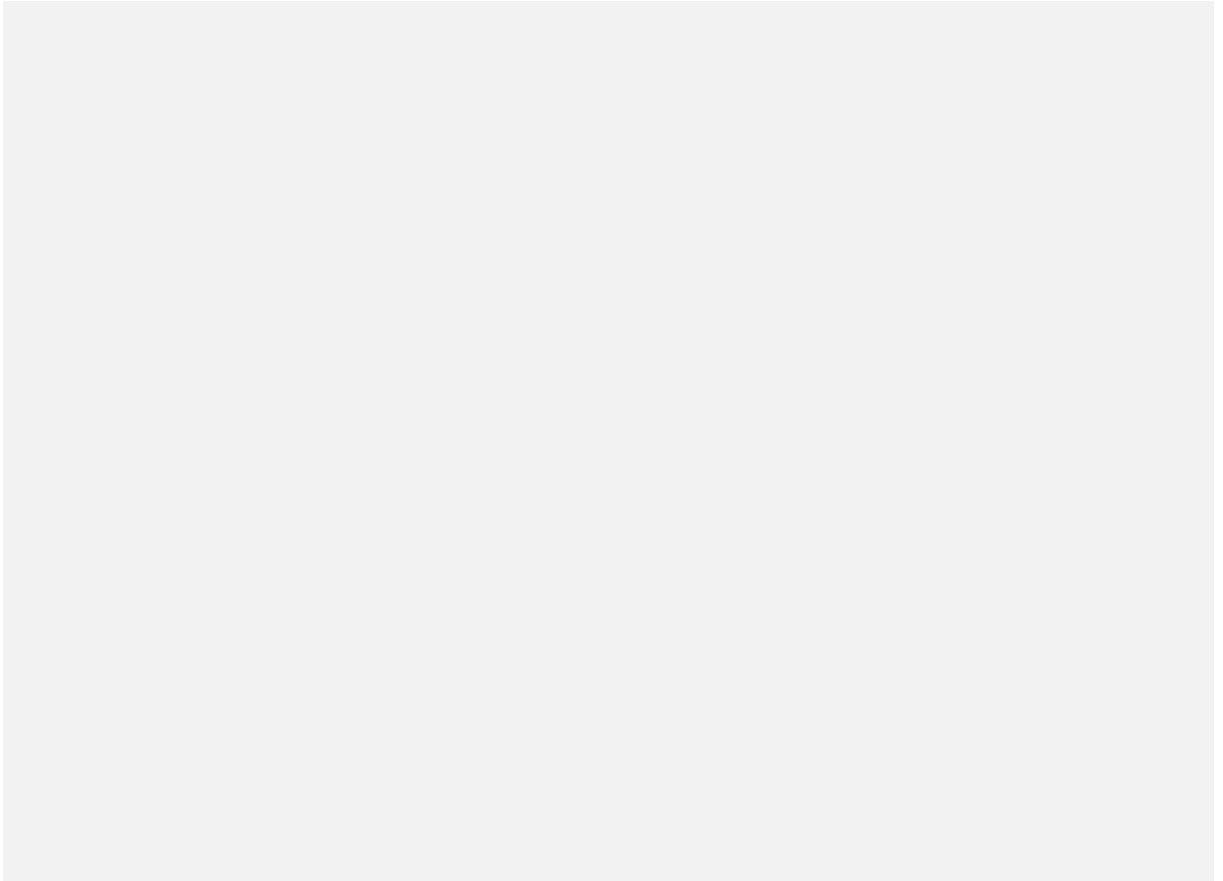

Name of the bay:

Address (if applicable):

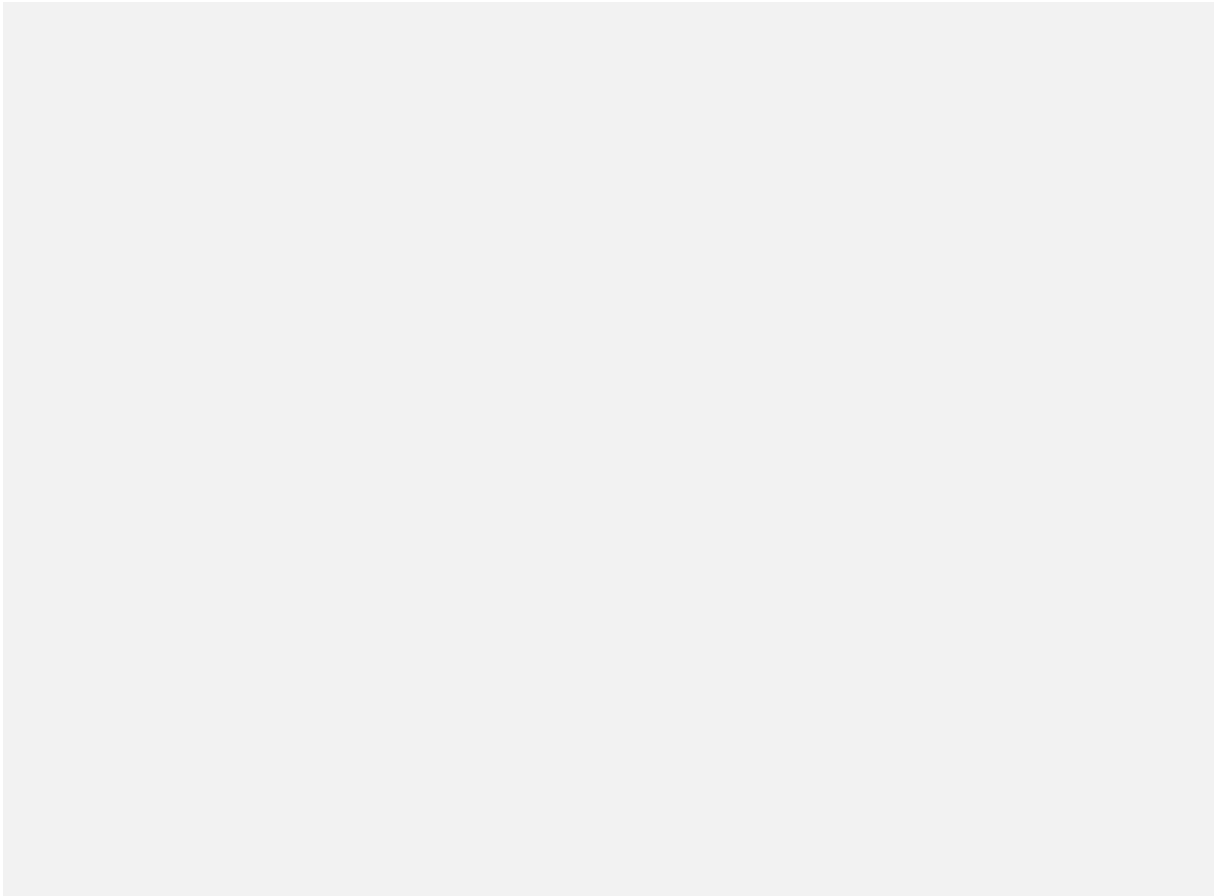

2. Describe in detail the proposed encroachment including when work is to commence, the size and footprint of the structure/s and the purpose of the structure/s. Attach relevant documents, including:

- Record(s) of Title (mandatory)
- Maps
- NZTM coordinates
- Photographs
- Survey plans
- Resource consent applications
- Concept plans
- Engineering reports
- Other

3. Could this structure/work be reasonably located on your private property? Provide details of other sites considered:

4. Is the activity applied for being used for commercial purposes? Give details/reasons.

I. Are you applying for anything else?

Are you applying for other DOC permissions (e.g. easement, concession) as well as this activity?

No	<input checked="" type="checkbox"/>
Yes	<input type="checkbox"/>

If yes, state the other permissions you are applying for?

J. Planning provisions (all applicants)

1. Does your proposal comply with the Marlborough District Council district plan(s) for the area?

No

Yes

2. Do you require resource consent and/or building consent? (Ask the relevant councils' planning sections for advice. Generally, if structures are to be built (or have been built), it is likely that consent/s will be required).

No

Yes

3. If resource/building consent is required, provide details of the consent together with information on progress with the application for consents. (It will be a condition of any licence to occupy that all necessary consents have been obtained.)

The building consent is attached.

K. Consultation undertaken

DOC has a statutory obligation to give effect to the principles of the Treaty of Waitangi. This often requires consultation with our Treaty Partner (iwi/hapū/whānau of local Māori) on your application. If you have already consulted with our Treaty Partner, or with other interested stakeholders, DOC would like to know about it.

We recommend you discuss consultation with a DOC staff member before starting your application.

Have you carried out any consultation?

No

Yes

If yes, supply details for each group consulted with:

Whānau/hapū/iwi or other interested party consulted with:	Consultation with Te Atiawa was undertaken in the course of obtaining the building consent.
Name of individual you consulted with:	The consultation process was undertaken by the engineer for project, [REDACTED]. He consulted with [REDACTED]. The correspondence is attached.
Date of consultation:	2 August to 20 August 2019
Form of consultation (e.g. email, meeting):	Email
Outcome of consultation*:	Support for the project was granted.

***If you received a written response to your consultation attach a copy to this application. Record the document details in the L Attachments section of this form.**

L. Consistency with DOC statutory plans

List [DOC's statutory planning documents](#)¹³ relevant to your application (e.g. Nelson/Marlborough Conservation Management Strategy):

Nelson/Marlborough Conservation Management Strategy
Marlborough Sounds Maritime Park Management Plan

Are you aware of any potential inconsistency your activity may have with DOC's statutory planning documents?

No

Yes

If you have answered 'yes' explain why it is inconsistent with the statutory planning documents.

¹³ <https://www.doc.govt.nz/about-us/our-policies-and-plans/statutory-plans/>

M. Description of actual and potential effects of existing or proposed works (all applicants)

Identify actual or possible effects of the activity applied for. Describe the actions you propose to take to avoid, remedy or mitigate those effects. For further information check [DOC's Environmental Impact Assessment](#)¹⁴ and [DOC's guide to preparing your environmental impact assessment](#)¹⁵.

In many cases an Assessment of Environmental Effect (AEE) prepared for resource consent under the Resource Management Act 1991 will satisfy this requirement.

Provide details below and record the document details in the L Attachments section of this form.

Effects	Description
Effects on the landscape e.g. ability of landscape to accommodate changes.	To comply with the building consent some earth has been removed from the area where the boat shed has been built. Since completion of the boat shed the soil has been landscaped to restore the shoreline contour
Effects on the visual composition of the landscape.	The boat shed has been painted in karaka green, which is one of the colours approved by the Council. It blends in with the surrounding vegetation and has a low profile from out in the channel.
Effects on cultural values of Tangata Whenua or members of the public.	No impact was identified in the consultation process
Effects on historic sites or objects including Wāhi Tapu e.g., disturbance of the ground.	No artifacts were discovered during excavation of the ground for the boat shed.
Effects on existing infrastructure such as roads, tracks, huts, carparks etc.	There are no roads, tracks or other existing infrastructure in the bay.

¹⁴ <https://www.doc.govt.nz/get-involved/apply-for-permits/managing-your-concession/environmental-impact-assessment/#low-medium-impact>

¹⁵ <https://www.doc.govt.nz/globalassets/documents/about-doc/concessions-and-permits/concessions/guide-to-environmental-impact-assessments.pdf>

Effects on existing vegetation e.g. disturbance or removal of vegetation.	A macrocarpa tree has been trimmed above the boat shed site. The felled macrocarpa branches have been removed.
Effects of earthworks e.g. removal of topsoil and where removed earthworks will be stored. Note: All earthworks storage on public conservation land needs to be authorised.	Soil was levelled on the site on which the boat shed was built in order to comply with the building code that requires that the deck is elevated 450 mm above the ground. The soil has been landscaped back to provide a smooth contour.
Effects on wildlife or wildlife habitat .	This is likely to be neutral, as one boat shed is being replaced with another.
Effects on aquatic habitat (waterways, swamps, freshwater animals and vegetation).	There are no expected effects.
Effects on other users (Tangata Whenua, recreational users, and concessionaires) of the land.	There are no expected effects.
Effects of potential increased threats (pests, weeds, pathogens, and fire) to public conservation land.	There are no expected effects.
Effects of increased rubbish, toilet waste or debris left on public conservation land during construction and regular use of the easement.	Historic rubbish from previous owners that has been placed on the foreshore reserve over the last several decades has been removed along with the felled vegetation and the old boatshed. The garden shed that is on the foreshore reserve has been removed. The foreshore and private property have been made tidy to minimise the visual and environmental impact of the structures. The foreshore surrounding the previous boatshed and woodshed have been restored to pristine condition.

<p>Cumulative effects that could be caused by the activity.</p>	<p>There are no expected effects.</p>
<p>Positive effects of the activity.</p>	<p>Clearance of rubbish, reduction in visual impact, conservation activities aimed at restoring native flora and reducing animal and plant pests. As a result of the work undertaken, the foreshore has landscaped to match the surrounding area and the overall appearance of the property on either side of the structures has a natural look that has greatly enhanced the appearance of the SFR and private property behind the SFR.</p>

N. Attachments

Attachments should *only* be used if:

- You are answering a specific question and providing a report e.g. Environmental Impact Assessment.
- There is not enough space on the form to finish your answer.
- You have additional information that supports your answer.
- You wish to make an additional request of DOC regarding the application.
