Please note:

Use these colour codes when submitting banding data

When ordering colour bands, please provide the following additional information:

- Registered Project name
- Species
- Locality of intended use
- Colour banding schedule:
 - number of colours used
 - cohort marking (e.g. birds of particular year all have red over metal on left leg)
 - number of colours on tibia, tarsus, left / right leg

Bird Bander's Manual

Price (excl. GST): \$17.39

Price (incl. GST): \$20.00

Bird banders have ethical and scientific responsibilities to minimise the adverse effects they have on their study animals and maximise the value of their research. To meet these responsibilities, banders need to be appropriately trained. The present manual has been developed in recognition of the need to promote quality in bird banding—it provides a basis for the setting of training standards for bird banders, and the development and implementation of training programmes.

The art and science of bird banding continues to evolve, with new techniques regularly being developed and old ones improved upon. Much of this work is undertaken by ‘amateurs’—those who enjoy contributing to the study of birds while giving freely of their enthusiasm, time and effort. Indeed, banding may be unique in allowing both professional and amateur to work alongside one another on equal terms.

It is hoped that this manual will encourage further development of bird banding in New Zealand.

Please note:

The Bander's Manual is not currently available in electronic format

Process for ordering:

- **Download, save and complete** the Order Form:
<http://www.doc.govt.nz/Documents/our-work/bird-banding/nznbbs-order-form.docx>
- Email completed form to the Banding Office: bandingoffice@doc.govt.nz

Courier statement

The Banding Office is now required to charge for courier costs.

If we need to courier your order (due to bulky, heavy, or expensive items), then the Banding Office will contact you before your order is sent to confirm the courier charge.
