

The search is on!

See how many things you can spot as you walk around the sanctuary.

1

Spot the bird sculpture on the island in the duck pond. Its body is made from an old gas canister.

What is its beak made of?

2

What type of bird has feet like this?

Can you spot any birds with feet like these?

3

What colour do you think a takahē chick would be?

Look for the three large signs at the takahē enclosure.

Can you find the photo of a chick?

4

Look for the oval plant signs to help you find the plant that has this leaf.

Pinch a leaf from the plant beside the sign.

Can you smell lemon?

5

Find the wings.

Which bird or butterfly will you be?

6

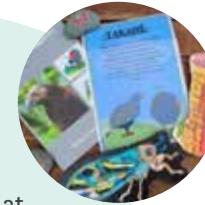

What colour are the eyes of an Antipodes Island parakeet?

7

There are lots of stories, poems and facts at the children's play shelter.

Enjoy reading one or looking at the bright artwork.

8

Can you see a bird in flight?

9

Close your eyes and listen for a bird chirping.

Can you copy its call?

What do you think it might be saying?

10

Between the kākā enclosure and the lake there is a little garden with painted stones in it.

Can you find all the tawaki / Fiordland crested penguins painted on the stones?

11

How many places can you find water in the sanctuary?

Can you find flowing water?

12

How many ducks can you count at the pond?

15

Most birds have three toes pointing forward and one pointing back. Kākā, kākārīki and all other members of the parrot family are different.

What is the pattern of their four toes?

13

Find the bush camp area and count the jumping kiwi.

How many are there?

14

Can you find any wild bird food (bugs berries, seeds, flowers)?
