

Figure 5 The few examples on the line where masonry has not been brought fully to course.
Top left: Prices Creek tunnel.

Top right: an arched basalt culvert south of Kokonga (65.32).

Lower left: a square basalt culvert at Kokonga (66.57).

Figure 6 Some fine culverts built with Waipiata basalt, uniquely brought to course.
Upper: Open culverts (69.32 and 75.38). Below: An arched culvert (74.67) and a square culvert (65.65).
