

PLOT 10 - CANOPY STRUCTURAL CHANGES

PLOT 10 - CANOPY COMPOSITION CHANGES

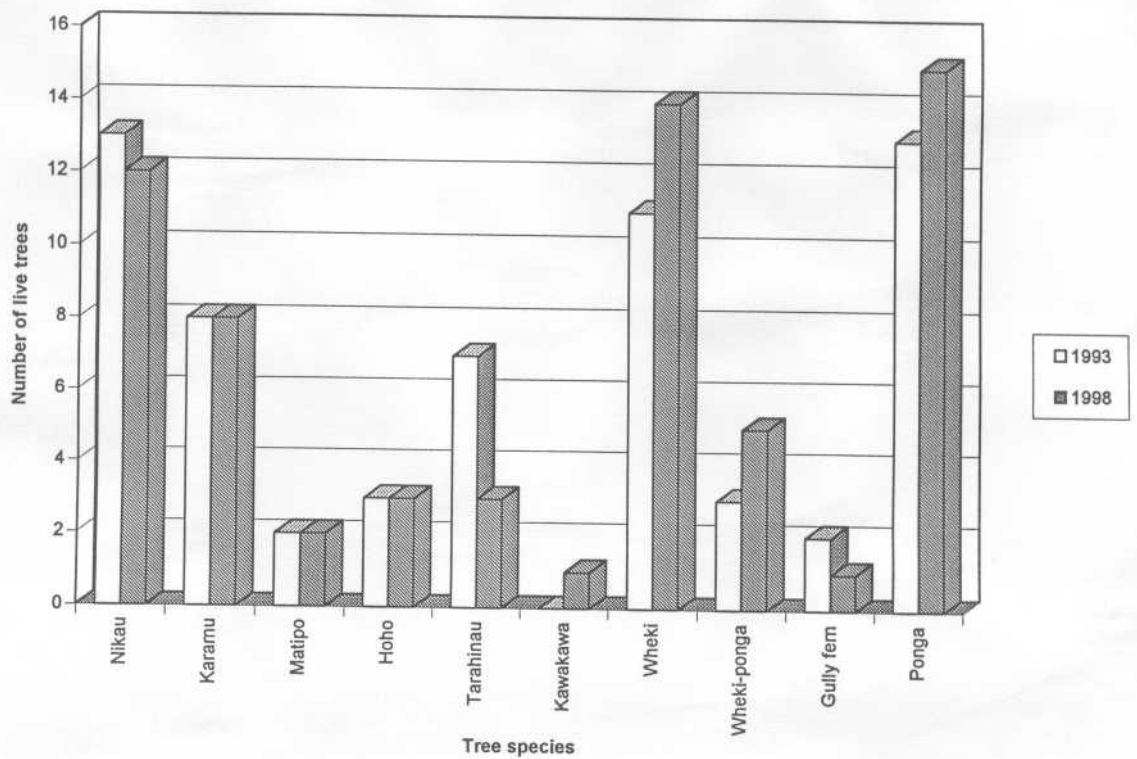

FIGURE 3

Vegetation Plot 1, exposed forest edge, Glory Block. **Above** In 1987, about seven years after being fenced off. **Below** In 1998, showing that although there has been tree loss it has been compensated for by regeneration of trees, tree ferns and flax.

**FIGURE 4**

Vegetation Plot 2, sheltered woodland basin, Canister Cove - Glory Blocks, 1998. The canopy has crumbled, but the absence of big animals has allowed good regeneration, especially from the tree bases.
